## Important clinic information

For contraceptive procedures (for the implant/coil), you will need a consultation first. An appointment can then be booked for your procedure.

If you are planning to attend the clinic towards the end of the opening time please call the clinic's contact number before travelling to see if they are still accepting patients.

If you have any symptoms (including sores, blisters or rashes on genitals, burning when weeing and unusual discharge), please visit the sexual health clinic at Cobridge Community Health Centre only.

Please only call the clinics' direct numbers during the clinic opening times.

**For appointments call 0300 7900 165**

*Phone line open 8.15am to 4pm Monday to Friday*
